

## What about ePubs?

E-BOOKS FOR E-READERS

**Yes, we do offer eBook conversion services!**

### TIMING

We will not begin working on your eBook until your print interior has been completed and paid for.

Right now, our turnaround time for eBooks is **1 week**.

Making changes to an ePub is NOT as simple as making changes to the print interior. To reduce the chance of needing to make changes to the ePub file after it's been created, we will only begin the ePub phase AFTER the print version is 100% approved.

### PRICE

eBook conversion is considered an add-on and is priced separately from our plans.

Your eBook cost is based on your final page count. If your book is \$250 pages long (in its printed form), your eBook will cost \$250.

\*If your book contains footnotes or endnotes, we will add an additional fee based on the number of footnotes/endnotes used. Formatting endnotes for an ePub can double the number of hours we spend creating the file, and therefore your ePub delivery could be delayed.

### VIEWING YOUR EPUB

Do not try opening your ePub file in Adobe Acrobat (It's not a PDF).

Use one of these programs to preview and assess your ePub:

#### MAC

Apple Books (formerly iBooks)

Calibre

Adobe Digital Editions

Kindle Previewer

#### WINDOWS

Calibre

Adobe Digital Editions

Kindle Previewer
