Explain “template customizations.”

WHAT ARE MY OPTIONS?

Templates

HUH?

If you’ve chosen the Diamond, Gold, or Silver Plan, you are able to make a number of changes to whichever template you’ve chosen. What are some examples of template customizations?

The most common customization involves incorporating your cover into the interior. If you’d like to repeat the main display font from your cover into the interior, that’s not a problem, just tell us where. (Oh yeah, and you’ll need to send us the cover font!) We suggest implementing the cover font on the chapter dividers and half-title page.

It’s important that you give us your list of template customizations **before** we send you your first pass. Any global change requests made **after** you receive your first pass are considered **edits** and will cost you. For example, if you decide to increase the font size after Round 1, that’s an edit and not a customization. That major change will cause all body text to **reflow** and will add a lot more time to your editing quota. If you think you might want to increase the font size, say so in the beginning!

OTHER COMMON CUSTOMIZATIONS

- increase/decrease the font size
- increase/decrease the leading (space between lines)
- remove the drop caps
- swap out the table of contents with one from a different template
- spell out the chapter numbers instead of using numerals
- use numerals for the chapter numbers instead of spelling it out
- add an epigraph to the beginning of every chapter
- add a little piece of artwork to the end of every chapter
- remove the running heads (page labels at the top of every page)

Add-ons that are not included in the plans

Extra Fees

RUSH FEE

In a crazy rush? I can help! Rest assured, it's possible to receive your first pass super, dupe ahead of time with these additional fees:

Gold Plan	2 business days = \$600	Diamond Plan	2 business days = \$900
	3 business days = \$400		3 business days = \$700
	4 business days = \$300		4 business days = \$600

EXTRA EDITS

Everytime I spend time inputting your edits, I track the time spent. Once the allotted editing time reserved for your package has been used up, any extra time will be billed at \$100/hour. Timing is precise and billed to the minute (10 min. spent = 1/6 of \$100)

REFLOW

There are certain major changes that will cause your entire manuscript to reflow. "Reflow" affects the pagination and is pretty close to starting over.

Let's say that during the third round, you want to increase the size of the body copy on every page—this will cause major changes to the paragraph breaks and will certainly increase your final page count. In the event of reflow, we will apply the following additional fees:

Diamond	50% of \$2,500	(\$1,250)
Gold	60% of \$1,250	(\$750)
Silver	75% of \$600	(\$450)

Examples of requests that will cause the manuscript to reflow:

- + Significant sizing changes to the margins
- + Increasing or decreasing the font size of the body copy
- + Changing the trim size of the book
- + Adding a significant number of images or illustrations last minute
- + Adding a significant number of footnotes

Does Your Book Contain Graphs, Photos Or Images?

SHORT N' SWEET

- The first 5 images placed in any book are free
- After that, images are billed at \$20/each
- If your book is very image heavy, we can discuss a unique rate for your project.

Extra Fees

[Watch a video explainer of this PDF!](#)

IMAGES

Adding images to a book substantially increases the complexity of this project, which is why I charge more if your book contains images. "Images" refers to photos, graphs, tables, icons, pie charts, etc.

FEE

I will place the first 5 images for free as a courtesy to all of my clients.

After that, **images are billed at \$20 each.**

If you're worried about the final fee because your book contains LOTS of images, let me first assess the images and we'll arrange a specific price.

SENDING ME YOUR IMAGES

Before I lay out your first pass, I need your images sent to me in one, single folder. Please avoid sending them in separate emails or one by one over the course of several weeks. This is confusing and an inefficient way to work!

Instead, gather up all of your images and put them into one folder and send it to me. If your folder is too large to send over email, use WeTransfer.com (it's free!)

FILE TYPES

I cannot extract your images from your manuscript/MicrosoftWord document. They must be sent to me as graphic files such as .JPGs, .PNG, or .TIFF.

COLOR / GRAYSCALE

Remember that your images will be printed grayscale, not in color. As a courtesy, I will convert any color images to grayscale for you.

If some of your images require editing or tweaking to improve the contrast when in grayscale, I can perform those edits for you as needed. I will do this work as a part of the \$20/per imaging fee, however, IF any of the requested imaging work surpasses the normal scope of work, I may need to add on another extra fee. If we are reaching that point, I will let you know!

What about ePubs?

E-BOOKS FOR E-READERS

Yes, we do offer eBook conversion services!

TIMING

We will not begin working on your eBook until your print interior has been completed and paid for.

Right now, our turnaround time for eBooks is 1 week.

PRICE

eBook conversion is considered an add-on and is priced separately from our plans.

I charge \$1 per page to create a reflowable or fixed eBook. Your eBook cost is based on your final page count. If your book is 362 pages long (in its printed form), your eBook will cost \$362.

FIXED OR REFLOWABLE?

eBooks come in two formats: reflowable and fixed layout. A **reflowable layout** is exactly what it sounds like, a format where the contents of the page can “flow” in order to automatically adjust to the device’s screen size. The lines of text and pagination will change in order to match the device and its orientation. A reflowable ePub is most common and is great for books that are mostly text, such as a novel or narrative nonfiction book. With the reflowable ePUB3 format, the reader can customize his or her eBook for the best personal reading experience and easily change text size, font, and margins etc.

The second format is a **fixed layout**. The fixed layout is suggested for poetry books with unique spacing. An eBook made with a fixed layout format looks like a copy of the physical book displayed on the eReader’s screen. The reader will have to zoom in or out depending on the device. Text size and pagination cannot be changed.
